

# Nuclease-Free Water

Cat. No. W7350ML

**Nuclease-Free Water** is useful for many molecular biological and biochemical applications.

## 1. Product Specifications

**Storage:** Store at room temperature.

**Molecular Weight:** 18.016 daltons.

**Contaminating Activity Assays:** Nuclease-Free Water is prepared by autoclaving deionized water. The water is free of detectable exo- and endonuclease and RNase activities.
