This information is provided for purchasers of dsDNA Conversion Kit for RiboMultiplier™ sRNA, RMD80625. The kits contain the following components:

DNA Polymerase
dNTP PreMix
StarScript™ Reverse Transcriptase Buffer
StarScript™ Reverse Transcriptase
100 mM DTT
RiboGuard™ RNase Inhibitor
1st-Strand cDNA and 2nd-Strand dsDNA Primers
cDNA Finishing Solution
RNase-Free Water

StarScript™ Reverse Transcriptase Buffer and 100 mM DTT contain DTT. A safety data sheet is provided for DTT.

Each of these protein solution including DNA Polymerase, StarScript™ Reverse Transcriptase, cDNA Finishing Solution and RiboGuard™ RNase Inhibitor is supplied in a 50/50 glycerol:H₂O solution containing salts and a detergent. A safety data sheet for glycerol is provided. These materials are for research use only.

A safety data sheet for dNTP PreMix is provided.

1st- & 2nd-Strand Primers are present at <0.1% and are not known to be hazardous.

EPICENTRE recommends all normal precautions be taken whenever all hazards are not known. We recommend wearing gloves and avoiding direct contact with skin and eyes when handling biochemical and chemical reagents or solutions.
