This information is provided for purchasers of Tobacco Acid Phosphatase represented by the following EPICENTRE catalog numbers: T19100, T19050, T19250, T19500, T81050, ES0907, ES80910.

The product is derived from tobacco. This protein presents no known threat to humans or laboratory animals. The storage solution is a 50/50 glycerol/H<sub>2</sub>O solution containing salts and a detergent. The salts and detergent(s) are present at less than 1% concentrations and represent no known hazards. A material safety data sheet for glycerol is provided.

The 10X TAP (Reaction) Buffer contains 0.5 M sodium acetate, pH 6, 10 mM EDTA, 0.1% Triton X-100. The solution contains the hazardous component 2-mercaptoethanol. An MSDS for 2-mercaptoethanol is provided.

EPICENTRE recommends all normal precautions be taken whenever all hazards are not known. We recommend wearing gloves and avoiding direct contact with skin and eyes when handling chemical solutions.

This information is believed to be correct; however, Epicentre makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages. This document is offered solely as a guide for the customer's consideration, investigation and verification. These suggestions do not replace state, municipal and/or insurance requirements. Any use of this information must be determined by the user to be in accordance with applicable federal, state and local regulations.
