This information is provided for the purchasers of the products described by the following EPICENTRE catalog numbers: FS99060, FS99100, FS99250, FS9901K, FSP995A ⇒ FSP995L

The FailSafe™ PCR Enzyme Mix contains enzymes isolated from nonhazardous bacteria. These proteins present no known threat to humans or laboratory animals. These protein mixes are supplied as 50/50 glycerol: H₂O solutions containing salts and a detergent. A material safety data sheet for glycerol is provided.

The FailSafe™ PCR System, FailSafe™ PCR PreMix Selection Kit, the separate FailSafe™ PCR 2X PreMixes A→L are composed of premixes containing 100 mM Tris•HCl, pH 8.3, 100mM KCl, 400μM each dNTP, 3-7 mM MgCl₂ and FailSafe™ PCR Enhancer with betaine. Safety data sheets are provided for dNTPs, PCR Enhancer, Tris, and KCl.

Epicentre recommends all normal precautions be taken whenever all hazards are not known. We recommend wearing gloves and avoiding direct contact with skin and eyes when handling biochemical and chemical solutions. These kits are for research use.
